The Parkdale Food Centre seeks to address food security and poverty through the power of community and good food.

We can all agree that community and good food is integral to our health and wellbeing.

Some of the things we share with our Neighbours everyday are; access to healthy, culturally appropriate food, community fridges and affordable produce markets, community meals, entrepreneurial literacy for youth, cooking workshops, community gardens and Neighbour led advocacy.

All of our programs seek to foster a sense of belonging through food.

We cannot express how the need for our work has grown over this past year.

We work hard to create a welcoming, inclusive atmosphere where everyone is valued and respected. Forming strong community partnerships is a vital component of the work we do as we move forward.

We are a registered not-for profit charity staffed by a small team of dedicated staff who are supported by a large base of energetic volunteers and a network of community partners who share our vision of building healthier, more connected communities through good food and friendship.

1 out of 7 Canadians identify as being food insecure.

14% of Ottawa households with children, fall below the low income measure.
